Register/Update	Upgrade data module - Wait for 2 minutes, this message will appear The device system is being upgraded, please connect to WLAN later.
奈 _{Hotspot}	

i. After the update message appears, DO NOT press the Pokefi on/off button and keep the battery installed. Observe the Pokefi signal indicator, the indicator will go off for 2-3 minutes, then go back on with the WiFi signal flashing in Red.

(If the Pokefi signal indicator does not go back on after 5 minutes, restart the Pokefi and repeat steps 2, 3 and 5)

6. Verify the updated version.

- a. Connect the computer to the Pokefi WiFi
- b. Input and go to the following website address <u>http://192.168.43.1/#!/menu/sysupgrade</u> through a browser
- c. Verify if the version is 1.06 or above
